HICKOX AND SON, SEVEN SISTERS' ROAD, SOUTH HORNSEY.

Important Notice.

Ratepayers are reminded that Licenses for **Dogs, Guns, Carriages, Armorial Bearings, and Male Servants**, may be taken out at Post Offices ; and that under the Local Government Act of 1888, the proceeds belong to the County in which they are paid.

The Post Offices where Ratepayers can obtain the Licenses above mentioned are :

279, GREEN LANES, and

72, ALLEN ROAD,

The Council hopes that every Ratepayer taking out such Licenses will do so in Middlesex County, so that the Council may reap the benefit of the payments.

The Council Room is available for such meetings of the Ratepayers as the Council may sanction.

South Hornsey Urban District Council.

REPORT, 1895-6.

EXTENT OF DISTRICT.—The district of South Hornsey, up to the 25th March, 1896, formed part of the ancient parish of Hornsey, viz., “all that part of it, lying South of the Seven Sisters Road.” This was the district as originally constituted, but by a Provisional Order of the Local Government Board, of the 27th May, 1874, confirmed by the Provisional Order Confirmation Act, 1874 (No. 3), which received the Royal assent on the 16th July, 1874, the boundary was slightly altered; extended in fact to an imaginary line drawn down the *centre of the Seven Sisters Road* instead of, as before stated, all to the *South* of that road, which did *not* include the *Footway* on the south or any portion of the *Roadway*. The area of the district is 230 acres.

PARKS AND OPEN SPACES.—This District is well provided for in the way of open spaces. Clissold Park, of which about 30 acres are situated in South Hornsey, is nearly central, and is of easy access to the whole of the inhabitants. To the acquisition of this Park in 1888, South Hornsey, under the authority of the Clissold Park (Stoke Newington) Act, 1887, contributed £6,000 repayable by annual instalments of Principal and Interest at $3\frac{3}{4}$ per cent. during a period of 50 years, of which £5,667 is still owing. Finsbury Park, although immediately beyond the boundary of South Hornsey, is also readily accessible from any portion of the District.

The Local Government Act was adopted in the year 1865, and a Local Board formed, consisting of 12 Members (the same number as at the present time), so that since the year 1865, and up to the 31st December, 1894, the “Local Board” was the Urban Sanitary Authority for the District.

By virtue of the Local Government Act, 1894, the name of the Authority was changed, and from the 31st December, 1894; instead of the “Local Board,” the governing body is called “The South Hornsey Urban District Council,” the Chairman, during his term of office, being a Justice of the Peace, ex-officio.

The Members who were elected in 1894 (which election was uncontested) were by the before mentioned Act to continue in office until the 15th April, 1896.

By the 36th section (2) of the Local Government Act, 1894, it is enacted that “where a Parish is at the passing of the Act situate in more than one Urban District, the parts of the parish in each

such district shall, unless the County Council for special reasons otherwise direct, be separate parishes in like manner as if they had been constituted separate parishes under the divided parishes and Poor Law Amendment Act, 1876, and the Acts amending the same"; so that, but for representations that were made to the County Council that there were special reasons why the parish should not be divided, the two Urban Districts of Hornsey and South Hornsey would have become separate parishes by virtue of the Act. In consequence of the representations so made to the County Council, that Council directed a Local Inquiry, which was held on the 28th May, 1894, by R. W. Harper, Esq., Barrister-at-Law, to take into consideration whether it was desirable

(1) That the part of the Parish of Hornsey in the district of the Hornsey Local Board, and the part in the district of the South Hornsey Local Board should be separate parishes, or

(2) That the boundaries of the district of the Hornsey Local Board, and of the South Hornsey Local Board should be altered so that the two districts should form one Urban District, or

(3) That, if special reasons exist, the parish of Hornsey should continue to be in two Urban Districts.

At this Inquiry, the absorption of this district into that of Hornsey was strongly opposed by the Local Board, which was supported by the almost unanimous vote of ratepayers, arrived at by a Poll taken by voting papers by direction of the Local Board.

The opposition in this respect was successful; but the Act was not allowed to operate so as to divide the parish, for on the 28th June, 1894, the County Council ordered that "the parts of the parish in each of the said Urban Districts should not be separate parishes, but the said parish of Hornsey should continue to be one parish, situate partly in the Urban District of Hornsey, and partly in the Urban District of South Hornsey."

The Hornsey Urban District Council, however, afterwards, finding that while remaining merely a part of a parish, they were not in a position to apply for certain additional powers which the Local Government Board could, under the aforesaid Act, confer upon an Urban District Council, made an application to the County Council, and thereupon another Inquiry was ordered, which was held on the 16th May, 1895, before the same Barrister, R. W. Harper, Esq.; the result of which was that the County Council made an order on the 25th July, 1895, under the Local Government Act, 1888, which was confirmed, subject to certain modifications by the Local Government Board, on the 28th November, 1895, such order being as follows:—"That so much of the parish of Hornsey, as

was within the Urban District of Hornsey, should be a separate parish, known by the name of the Parish of Hornsey; and that so much of the parish of Hornsey as was within the Urban District of South Hornsey, should be a separate parish, known by the name of the Parish of South Hornsey; that of the 10 Guardians elected for the existing parish seven should be allotted to the new parish of Hornsey, and three to the new parish of South Hornsey, the Board of Guardians for the Edmonton Union having to determine which three should represent the new parish of South Hornsey: the Guardians to remain in office until their respective dates of retirement, as if the order had not been made; that, until overseers should be appointed for the new parishes, the Overseers for the existing Parish should be deemed to be Overseers for each of the new Parishes; that the Vestry Clerk of the existing Parish, in office when the Order should come into operation, should be the Vestry Clerk for each of the new Parishes, and should hold his office in each new Parish by the same tenure and upon the same terms and conditions as before, and should retain the custody of the public documents of the existing Parish, his salary to be borne by the two new Parishes in proportion to their rateable values at the commencement of the local financial year next after the making of the Order; that nothing in the Order should affect the Ecclesiastical Parish of Hornsey, or should prejudice, vary or affect any right, interest or jurisdiction in or over any charitable endowment then applicable to the benefit of the existing Parish; that the expense of the maintenance of the Hornsey Parish Churchyard, should in future be borne by the new Parish of Hornsey; that for the purpose of any adjustment under the Local Government Act, 1888, any balance standing on the 25th March, 1896, in the accounts of the Guardians in favour of or against the existing Parish, should be deemed to be the property or liability, as the case might be, of the Overseers of such Parish, and that any sum required to be paid in pursuance of any Agreement or Award under the Act, might be paid out of such fund as should be determined by the Agreement or by the Award; that each person holding the office of Collector of Poor rates in the existing Parish should continue to hold the like office within the same area as theretofore and upon the same terms and subject to the same regulations as theretofore; that the new Parishes of Hornsey and South Hornsey should be included in the Edmonton Union; that the new Parishes of Hornsey and South Hornsey should form a United School District within the meaning of the Elementary Education Acts, under the name of the Hornsey United School District; and that nothing in the Order should affect the area of any Petty Sessional Division.

So that this District, which, as before stated, originally formed part of the ancient Parish of Hornsey, became a separate Parish on the 26th March last, and henceforth will be known as the Parish of South Hornsey.

ELECTION OF MEMBERS.—By the Act of 1894, the Council might, by a resolution passed by two-thirds of the Members voting on the Resolution, direct that the Members of the Council should retire together on the 15th of April in every third year; such a Resolution, having been passed, was sent to the County Council, who directed a Local Inquiry with reference to this matter, which was held by W. Harold Squire, Esq., Barrister-at-Law, on the 27th of November, 1895.

At this Inquiry the Ratepayers who attended it strongly opposed Triennial Elections, and it may be stated here that the Council in passing the resolution was under an impression that it would, and intended it to, apply only to the first three years, not desiring to bind their successors; but on its being authoratively stated that, if the Order was made it would be permanent, the Council's resolution was not further pressed, consequently no Order was made by the County Council for the following reasons:—The opposition of Ratepayers, the absence of any special circumstances justifying it, and the fact that it was applied for by the District Council under a misapprehension as to its nature. An election of four Members will therefore take place annually.

Again this year (1896) there was not a contested election, Messrs. Feese, Hedger, Price, and Winckworth being returned unopposed, so that the same gentlemen who were elected in December, 1894, are still Members of the Council. The term of office of Messrs. Blower, Brough, Johnston, and King, will expire on the 15th of April, 1897, and that of Messrs. Atkinson, Dod, Harper, and Hollands on the 15th of April, 1898.

ADDITIONAL POWERS.—The Council, on the 15th January, 1896, applied to the Local Government Board under the Local Government Act, 1894, for an Order conferring on the Council the following powers, viz: The appointment of Overseers and Assistant Overseers, the revocation of appointment of Assistant Overseers; the appointment of Trustees of the Parochial Charities; and Trustees of the "Hornsey Fuel Fund"; also for the powers of a Vestry under Sections 6 and 34 of the Local Government Act, 1894 (except as therein provided).

The Local Government Board, by their Order, conferred on the Council the power of appointing Overseers for the new Parish of South Hornsey, and at the Meeting on the 16th April, 1896, Messrs. James Harper, and George Hedger, who had served that office—with two other gentlemen for Hornsey—and Mr. Thomas Blower were appointed, and will continue in office until the 31st March, 1897.

The other powers which the Council have asked the Local Government Board to confer upon them, are at present in abeyance.

NEW BYE-LAWS.—On the 12th February, 1896, the Council set their seal to new Bye-laws as to New Buildings, and as to Alterations to Buildings, which are now before the Local Government Board for confirmation.

OVERCROWDING.—The Council think it well to draw attention to the Factory and Workshop Act, 1895, which directs that a Workshop shall, for the purpose of the law relating to public health, be deemed to be so overcrowded as to be dangerous or injurious to the health of the persons employed therein, if the number of cubic feet of space in any room therein bears to the number of persons employed at once in the room, a proportion less than 250, or during any period of overtime 400 cubic feet of space to every person. And that every person in occupation of a workshop on the 1st January, 1896, is required before the expiration of 12 months from that day, unless he has already done so, to serve on the Inspector of Factories for the District a written notice containing the name of the Workshop, the place where it is situate, the address to which he desires his letters to be addressed, the nature of the work, and the name of the person or firm under which the business of the Workshop is carried on, and in default will be liable to a fine not exceeding £5.

SHELTER.—The house, No. 44, Milton Road, was purchased for the purpose of affording accommodation to people required to vacate their rooms or dwellings to enable them to be fumigated and cleansed after infectious disease.

HOLIDAYS FOR WORKMEN.—The Council decided to give the Roadmen in their employ a week's holiday under certain conditions as to good conduct, etc., during the year.

NEW LOAN.—The Council took up a new loan of £2,050 from the Equitable Life Assurance Society, being the purchase-money for the site for the Hospital for cases of Infectious Diseases, the money being paid over on the 7th October, 1895.

During the year £771 of Loan was discharged.

POPULATION AND RATEABLE VALUE.—The population of the District, according to the census in 1891, was 16,092, and is now calculated to be 17,180. The density of the population is 74 to the acre.

GAS SUPPLY.—The gas used in the District is supplied by the Gas Light and Coke Company. There are 247 public lamps in the District. The charge for gas to private consumers is 2/10 per 1,000 cubic feet.

WATER.—The water for street watering and house supply, &c., is supplied by the New River Company: the amount used for the

first purpose during the past year (1895) was 3,552,000 gallons, costing $8\frac{1}{2}$ d. per 1,000 gallons, against :—

2,581,000 for 1894.
 4,172,000 for 1893
 3,491,000 gallons used in 1892, and
 2,657,080 gallons used in 1891.

The water is supplied to private consumers according to assessment.

DRAINAGE.—The District is drained into the Metropolitan system, for which £1,145 was paid to the London County Council during the year, being a *pro rata* contribution based upon the assessments of the contributory authorities, including the Metropolitan Vestries of London, the Local Boards for the Districts of South Hornsey, Hornsey, Beckenham, Tottenham, &c.

MAIN ROADS.—No Agreement was entered into with the County Council. The account as rendered amounted to £556 16s. The account as audited by the County Surveyor showed the expenditure on the roads, including establishment charges, to be £538 18s.

FIRE BRIGADE.—During 1895 the Fire Brigade received calls to fires as follows :—

Chimney Fires in District	11
House Fires in District	14
False Alarms	2
Fires extinguished by Brigade in			
Metropolitan Area	3
Assisted at Fires in Metropolitan Area			4
Attended only at Fires	„	„	2
		—	9
			<hr/> 36

The total amount paid in wages for night firemen, and for maintenance, etc., at the fire stations in Milton and Somerfield Roads (not including the horsing of the engine) according to the last audited account, was £240.

DUSTING.—The dust and house refuse is removed by contract at an annual cost of £540. In order to secure prompt removal of dust, particular attention should be given to page 16.

Report of the Medical Officer.

To the South Hornsey District Council.

GENTLEMEN,—

The number of deaths, registered as having taken place in the district of South Hornsey during the past year, 1895, was 220, and consisted of 102 males and 118 females. The births during the same period were 429, viz., 222 males and 207 females; so that the natural increase of the population, judged in this manner, is 209, but I have every reason to consider the actual increase is very small, and that the population at this time is about 17,180.

The death-rate for the year is 12·8 per 1,000 persons living; and the birth-rate is 24·9. The death-rate for the year 1895 in England and Wales was 19·1 per 1,000; in London it was 19·8. In the outer ring the death-rate was 14·5. The birth-rate was in London, 30·1; this is the lowest London birth-rate recorded. In the outer ring the birth-rate was 28·8.

Included in the 220 deaths were 31 caused by the diseases of the Zymotic class; 6 were from Diphtheria; 5, Diarrhœa; 4, Croup; 4, Influenza; 3, Enteric or Typhoid Fever; 3, Measles; 2, Whooping Cough; 2, Erysipelas; 1, English Cholera; and 1, Dengue.

The Zymotic death-rate for the year was 1·8 per 1,000 persons, and was 14·0 per centage of the deaths. In the previous year, 1894, the Zymotic death-rate was 1·5 per 1,000, or 13·5 per centage of the deaths. The Zymotic death-rate for London was 2·46, and in the outer ring, 1·98.

The number of Infants that died during the year was 47, and is equal to a death-rate of 2·7 of every 1,000 persons living, and 10·9 per cent. of the registered births.

The number of persons of 60 years of age and above, that died in 1895 was 73, and the death-rate was 12·8 for 1,000 persons, or 33·1 per centage of the deaths; last year the deaths of persons of 60 years and above was 62, and was 31·6 per cent. of the deaths.

The number of cases of Infectious Diseases notified during the year 1895, was 134; 68 of these were Scarlet Fever, but no death from this disease during the year 1895 was registered.

A sudden outbreak took place in the northern part of the District during the month of February, the cause of which was clearly traced to the milk supplied by a Dairy in North Hornsey, which I visited and ascertained from the proprietor that Scarlet Fever was prevalent in two of the villages from which a portion of his milk was supplied. I obtained from him a guarantee that he would not supply any more milk from those dairies; the outbreak did not spread further.

In the 50 houses in which the 68 cases of Scarlet Fever that were notified took place, 38 had only one case in each house, while 8 houses had two cases, two had three, and two also had four cases.

It appears to me from these facts that the means taken by your Council to isolate these cases, and so check the spreading of this disease, was highly successful; and *that* although you do not at present possess the advantage of an Infectious Hospital, I am happy to be able to say that the site for a Hospital for Infectious Diseases is now in the possession of your Council, and that shortly I trust it will be ready to receive patients.

Table 9 shows the amount of Sanitary work done during the year; 475 houses were inspected, and 1,020 re-inspections took place after notice. The number of letters and circulars sent out were 800, Statutory notices served were 243, and summonses served, 5. The number of drains examined and tested were 115.

It is again my great pleasure to congratulate the Council on the continued healthy state of the district, as shown by the facts contained in this report.

I am, Gentlemen,

Yours Faithfully,

THOS. S. H. JACKMAN,

Medical Officer of Health.

April 13th, 1896.

Householders are requested to expose the D cards in their windows before 8 a.m. on the day appointed for removal of Dust in their respective roads. Sanitary Dustbins which require frequent attention, can be emptied weekly by applying to the Surveyor.

In providing **SANITARY DUST BINS**, it is requested that they should be of such a size as to hold one week's refuse, a useful size being 1-ft. 4-in. in diameter by 2-ft. 6-in. high; they should be made of galvanized iron provided with a cover, and a pair of handles for carrying.

ROAD SWEEPINGS for Gardening Purposes may be had gratis on application to the Surveyor.

FIRE ! In case of an outbreak, apply at the Engine Station adjoining the District Council Offices, or to the Firemen in attendance at Somerfield Road. Fire-alarm posts are situated as follows in the Brownswood Park District :

Queen's Road by King's Road,
Somerfield Road by Wilberforce Road, and
Seven Sisters Road by Alexandra Road.

And also near Police Station—High Street.

Fire Escapes are Stationed at Milton Road and Somerfield Road.

It would be esteemed a favour if Ratepayers will assist the Council, and consult their own interests, by giving information of any person seen by them wrongfully breaking the glass and tampering with the apparatus.

CAUTION! The Council maintaining their own Fire Brigade, the Ratepayers are requested to avoid payment to bogus Firemen calling at their houses.

GARDENING OPERATIONS.—Complaints having been made of the throwing into the road-way, of grass cuttings, paper, straw, etc. Householders are requested to see that these are burnt ; a Reward of 10/- is offered for information leading to the conviction of offenders.
